

Elevator Speeches for the Health Professions

Pharmacists play a vital role on the healthcare team through the medicine and information they provide to other providers and to patients. When pharmacists are involved in patient care, outcomes improve and costs decline. Pharmacists can practice and specialize in any area of healthcare and while responsibilities vary among the different areas of pharmacy practice, the bottom line is that pharmacists help patients get well.

Physical therapists are trusted health care professionals who examine, diagnose, and treat conditions that limit
